I am a full stack developer who enjoys creating applications that are helpful and intuitive all while providing a pleasant visual presentation.

PROJECTS

Delve — *An App That Helps you find free events in your Area*

Delve was made using Swift 3 in Xcode. It integrates Core Data along with an external API built with Angularjs, Node.js, Express.js, MongoDB.

E-commerce – *Online E-commerce*

E-commerce was made using Python, Django, PostgreSQL, Bootstrap, HTML5, and CSS.

EXPERIENCE

Freelance – http://www.centrodebienestarfamiliar.com/

- Helped with Search Engine Optimization
- Added Maps integration to the page
- Helped with layout consistency

Scotts Miracle Gro, Los Angeles/Hawaii — *Merchandiser*

November 2015 - PRESENT

- Created visual product displays to maximize sales and customer interest.
- Conducted and presented analyses of best-selling products to store managers in order to obtain high traffic territory within the store.
- Created and established relationships with Store Managers, Assistant Managers, and Department Managers that led to extra opportunities to grow the business.
- Grew business 9.4% in 8 months.

BulletProof Automotive, Hawthorne — *Sales Representative*

June 2015 - November 2015

- Helped sales team become more efficient by developing spreadsheets that match Japanese Products with American prices.
- Provided marketing materials and actively promoted the company through social media and forums.
- Maintained relationships with customers, by providing updates
